

ProCoat Prime Gravity Feed Spray Gun 600 ml

(Part No:- PCP-GFH)

FEATURES:

Bullows ProCoat Prime gravity feed spray gun is the first choice of every painter in the automobile refinish market. These are rugged spray gun suited for tough and continuous operation, at the same time ensuring top quality performance and finish.

This Performance is achieved by a combination of smooth flowing air passage and specially designed air valve, which gives the lowest pressure drop. This combination with new wide range of air nozzles, provides a performance which is unique in spray painting applications.

Quick and accurate pattern is achieved by an Air Pressure Control Valve available at the bottom of the gun. This also controls pressure for fine shading or delicate work.

These guns are suitable for all general industrial spray painting application.

TECHNICAL SPECIFICATIONS

Sr	Description	Unit
1.	Fluid Nozzle (mm)	1.4, 1.7, 2.0, 2.5
2.	Cup Capacity (MOC)	600 ml (SS)
3.	Operating Pressure	2 - 4 bar
4.	Air Inlet	1/4" BSP
5.	MOC	Aluminium
6.	Fluid Output	325 ml/minute
7.	Weight	700 gm
8.	Pattern Width Flat	10-12 inch
9.	Pattern Width Round	4-5 inch

General Application Sectors:

- Automobile Refinishing
- General Engineering
- Heavy Engineering
- Metal / Wood / Plastic
- Ceramic Industry
- Defence / Steel
- Drums & Barrel
- Leather Industry
