Ratchet Type Automatic Spray Gun

Ordering Information (Part No.- TL-AT-ES-RT-1.4SS-FG)

Ratchet automatic spray gun has been designed by keeping the customer convenience in mind. Unmatched continuous application and ease of maintenance together gives the ultimate performance in automatic air automising spray finishing equipment.

FEATURES:

- Suitable for high volume production
- Rapid triggering response rate
- Easily removable front head
- Design enables fast & easy maintenance
- Ratchet controlled fluid flow adjusting mechanism
- A zero indicator for easy repeatability of the fluid flow settings
- Precise and easily accessible air controls Ø SS fluid passage

TECHNICAL SPECIFICATION

Sr No.	Description	Unit
1.	Operating Pressure	2-4 bar.
2.	Pattern Size (inch)	2-12 inch
3.	Nozzle Size (mm)	0.8, 1, 1.3, 1.5, 1.8, 2.0 mm
4.	Weight (gm)	550 gm
5.	Paint Connection	3/8" BSP
6.	Air Connection	1/4" BSP
7.	Tip & Needle Set (MOC)	SS (304)

General Application Sectors:

Automobile Industry	General Engineering
Heavy Engineering	Leather Industry
Ceramic Industry	Defence / steel
Drums & Barrel	Metal / Wood / Plastic
