Rotary Geared Air Motor (0.6 HP)

Ordering Information (Part No.- TL-AM-0.6HP)

FEATURES:

1. Rotary geared air motor is compact in size and easy to mount on paint tank for paint steering application to avoid color viscosity & color variation.
2. This Air motor imparts a 360° rotation with high speed which is suitable to rotate high viscous material or paint.
3. Rotary geared motor is highly efficient and of premium quality which is precisely manufactured by using advanced technology and finest grade of raw material
4. Air Motor can be safely used in hazardous applications, cool running due to expansion of compressed air
5. Air motors are easily dismantled and repaired due to modular Construction.

TECHNICAL SPECIFICATION:

Sr No.	Description	Unit
1.	Air Pressure	30-90 PSI
2.	RPM Range	650 max.
3.	Horse Power	0.6 HP
4.	Torque	32.5 NM
5.	Air Consumption	0.4 M3/MIN.

General Application Sectors:

Automobile Industry General Engineering
Heavy Engineering Leather Industry
Ceramic Industry Defence / steel
Drums & Barrel Metal / Wood / Plastic
