

ProCoat Elite Gravity Feed Spray Gun 300 ml

(Part No:- PCE-GFH)

FEATURES:

Bullows ProCoat Elite is the first choice of every painter in the industrial Paintshop. These are rugged spray gun suited for tough and continuous operation, at the same time ensuring top quality performance and finish.

This Performance is achieved by a combination of large smooth flowing air passage and an oversize air valve, which gives the lowest pressure drop. This combination with new wide range of air nozzles, provides a performance which is unique in spray painting applications.

Quick and accurate of stipple pattern is achieved by an Air Pressure Control Valve available at the bottom of the gun. This also controls pressure for fine shading or delicate work.

These guns are suitable for all general industrial spray painting application.
